INDUSTRY COMMUNICATION: IMMEDIATE DISCONTINUATION OF BULK PRINTING OF REGISTRATION CERTIFICATES FOR TRAINING PROVIDERS

The Private Security Industry Regulatory Authority (PSiRA) wishes to inform all stakeholders of an immediate change to the process governing the bulk printing of registration certificates. Historically, PSiRA has permitted registered security businesses to request the bulk printing of registration certificates for their registered security officers, which are then collected from PSiRA branches for distribution to their employees.

It has, however, come to the Authority's attention that some security training providers have been requesting bulk printing of registration certificates on behalf of their learners. This practice is not aligned with the intended purpose of the bulk printing facility.
With immediate effect, PSiRA will no longer process bulk printing requests submitted by security training providers for their learners' registration certificates. Bulk printing of registration certificates will **only** be permitted for **registered security businesses requesting certificates for their own employees**.

Individuals who require registration certificates and who are not employed by the requesting security business must obtain their certificates through the prescribed PSiRA processes.
This measure is intended to strengthen administrative controls, safeguard the integrity of registration records, and ensure that the bulk printing facility is utilised solely for its intended purpose.

All training providers and industry stakeholders are requested to take note of this change and ensure immediate compliance. For any enquiries, please contact your nearest PSiRA branch or the PSiRA Contact Centre.
